6TH ANNUAL CONFERENCE OF THE AGAINST THE TIDE CLUBS

FREEDOM vs. COMMUNISM

June 11-14, 2020 • Application form: idzpodprad.pl/register

As the first Polish TV we conducted an interview with Jimmy Lai, Chinese multimillionaire who had escaped to Hong Kong and today, is one of the leading Hong Kong media tycoons and a very dedicated activist for the freedom of that country.

In June, the 6th Conference of the Against the Tide Chapters, titled "FREEDOM vs. COMMUNISM," took place in two parts. The first part included lectures by international speakers involved in the fight against the expansion of Chinese communism. The second part of the Conference was devoted to improving the operation of the Against the Tide Chapters. It was led by Art Thompson, CEO of the John Birch Society – world's largest anticommunist organization. This was his fourth appearance at the Against the Tide Conference. A novelty was a live international debate with contributions from representatives of the United States, Hong Kong, and Poland. Due to the Chinese virus pandemic, for the first time in history, we met via the Internet only. Over 400 people participated in the Conference.

In response to the recent attack on President Donald Trump for his picture with the Bible in front of a church – an attack supported by some Christian circles – Pastor Chojecki launched a campaign on social media #ChristiansForUSA. Several hundred people from various countries, such as Poland, the United States, and Germany, have already joined it. Among them was Dr. Enver Tohti, Chinese transplant surgeon and hero of the film "Hard to Believe." We made a special clip for President Donald Trump's birthday that has been forwarded directly to the office of the US President.

We are very grateful to God and to our viewers. Already for a year and a half over 1000 viewers have supported our project each month. Praise God!

The situation of the Catholic Church in Poland is undergoing a dramatic change. In the aftermath of uncovering pedophilia scandals and breaking the conspiracy of silence on the part of the government and the media, the pope has banished one of the bishops suspected of covering up pedophilia and he announced further actions. Our TV often brings up this topic and invites guests involved in the fight against the practice of concealing pedophilia in the church.

We are finishing the preparations for our new television studio, which – including its control room – will use about 1400 sq. ft. of space. In a few weeks, we are planning its inauguration.
